专升本（河北）真题详解-2022 年阅读 B

小红书:
爱吃火腿肠(河北专升本版)

Passage 1

Questions 16-20 are based on the following passage. 答案：CABDB

Many people believe that teaching children music makes them smarter, better able to learn new things. But the organizers of a new study say there's no scientific evidence that early musical training affects the intelligence of young people.

许多人认为教孩子音乐能让他们更聪明，更能学习新事物。但一项新研究的组织者表示，没有科学证据表明早期音乐训练会影响年轻人的智力.

smart adj 聪明的 be able to 能够 organizer n.组织者 scientific adj 科学的
evidence n.证据 early adj 早的 Training n.训练 intelligence n.智力

An estimated 80 percent of American adults think music lessons improve children's ability to learn or their performance in school. They say that the satisfaction for learning to play a new song helps a child express creativity.

据估计，约有 80%的美国成年人认为音乐课程能够提高儿童的学习能力或学校表现。他们表示，学习演奏一首新曲子所带来的满足感有助于孩子表达创造力。

estimate v.估计 percent 百分比 adult n.成年人 Improve v.提升 ability n.能力
performance n.表现 satisfaction n.满足 express v.表达 creativity n.创造力

Researchers at Harvard University, however, have found that there's one thing musical training does not do. They say it does not make children more intelligent.

然而，哈佛大学的研究人员发现，音乐训练有一件事是做不到的。他们表示，音乐训练并不会让孩子变得更聪明。

However 然而 （表转折） intelligent adj 聪明的

Samuel Mehr is a graduate student at Harvard's School of Education. He said it is wrong to think that learning to play a musical instrument improves a child's intellectual development. He says the evidence comes from studies that measured the mental ability of two groups of 4-year-olds and their parents.

塞缪尔·梅尔是哈佛教育学院的研究生。他表示，认为学习演奏乐器能提高孩子的智力发展是错误的。他说，这一结论来自测量两组 4 岁儿童及其父母智力的研究。

graduate student 研究生 graduate v.毕业 Education n.教育 wrong adj 错误的
instrument n.乐器 development n.发展 Evidence n.证据 measure v.测量
mental adj 精神的

One group attended music class, the other went to a class that places importance on the arts—arts that can be seen. "The evidence there is 'no'.

一组人参加了音乐课，另一组人则去了一门重视视觉艺术的课程——可以看见的艺术。"那里的证据是'没有'。"

attend v.参加 group n.群组 the other 另一个 visual adj 视觉的，视力的
place importance on 重视

We found no evidence for any advantage on any of these tests for the kids participating in these music classes," said Mehr. Samuel Mehr says researchers have carried out many studies in an effort to learn whether musical training can make children smarter.
梅尔说："我们没有发现参加这些音乐课程的孩子在任何这些测试中有任何优势。"萨缪尔·梅尔表示，研究人员已经进行了许多研究，试图了解音乐训练是否能让孩子更聪明。

any 任何 advantage n.优势 test n.测试 kid n.孩子 effort n.努力
participate in 参加 carried out 执行

He says the results have been mixed. He says only one study seems to show a small percentage increase in IQ, intellectual scores among students after one year of music lessons. He does not believe that IQ is a good measure of child's intelligence.
他说结果喜忧参半。他说只有一项研究似乎显示，在经过一年的音乐课程后，学生的智商和智力评分有小幅上升。他不认为智商是衡量孩子智力的好指标。

have been 一直是（某个状态） seem 似乎 percentage 百分比 increase v.提升
score n.得分 among 在..之中 measure n.衡量
He says researchers in his study compared how well children in the musical training group did on mental processing tasks or projects, then the results were compared to those of children who did not take lessons.
他说，他的研究中，研究人员比较了接受音乐训练的儿童在心理处理任务或项目上的表现，然后将结果与没有上音乐课的儿童进行了比较。

Compare v.比较 were compared to 与...相比
There was no evidence that the musical training group did much better on the mental tasks than the other group.
没有证据表明音乐训练组在心理任务上的表现比其他组好多少。

task n.任务
The researchers confirmed the results with a larger group of children and their parents. Mr Mehr says music lessons may not offer children a fast easy way to gain entry to the best schools later of their life.
研究人员在一组更大规模的儿童及其父母中证实了这一结果。梅尔先生表示，音乐课程可能并不能为儿童在日后轻松快速进入最好的学校提供捷径。

Confirm v.确认 result n.结果 offer v.提供 fast adj 快速的 gain v.获得
entry 进入
But he says the training is still important for cultural reasons .In his words, "We teach music because music is important for us."
但他说出于文化原因，训练仍然很重要。他的话是："我们教音乐，因为音乐对我们很重要。"
training n.训练 still 仍然 important adj 重要的 Cultural adj 文化的
reason n.原因
