河北省普通高等学校专升本考试

英语全真模拟试卷一

(考试时间：60 分钟)

(总分：100 分)

说明：请在答题纸的相应位置上作答，在其它位置上作答的无效。

I. Phonetics (5 points)

Directions: *In each of the following groups of words, there are four underlined letters or letter combinations marked A, B, C and D. Compare the underlined parts and identify the ONE that is different from the others in pronunciation. Then mark the corresponding letter* ***on the Answer Sheet*** *with a single line through the center.*

1. A. huge	B. public	C. humorous	D. uniform
2. A. abuse	B. subject	C. success	D. grasp
3. A. research	B. chat	C. choice	D. chemistry
4. A. house	B. loudly	C. cousin	D. mouse
5. A. expand	B. exchange	C. extend	D. exam

II. Situational Dialogue (10 points)

Directions: *In this section there is a long dialogue with five missing sentences. At the end of the dialogue, there is a list of given choices. You are required to select the ONE that best fits into the dialogue. Then mark the corresponding letter* ***on the Answer Sheet*** *with a single line through the center. Note that there are two additional choices and you may not use any of the choices in the list more than once.*

A: Hi, Jane. Would you like to help save the environment?

B: ___6___ It sounds like a meaningful thing to do. But what can I do? I'm not sure where to start.

A: Well, first, you can start by turning off the lights when you leave a room. It's a simple habit but really helps reduce energy waste.

B: Yes. That's easy. ___7___ What's next?

A: Second, you can ride a bicycle. Don't take a bus or a taxi if you don't have to.

B: That will save a lot of money, too. What else?

A: Third, ___8___

B: Mmm. We have a lot of paper at home, such as newspapers and magazines. Good idea.

A: The fourth idea is to turn off the shower when you're not using it.

B: ___9___

A: Yes. Get wet, turn off the shower, put the shampoo in your hair and then turn on the shower and wash it out.

B: I totally agree with you. ___10___ We have to save water.

A. But what can I do for you?

B. I think water is very important to us.

C. Do you mean when I have shampoo (洗发水) in my hair?

D. I'd like to.

E. try to recycle paper.

F. take a bag when you go shopping.

G. Sometimes I turn off the lights without thinking.

III. Reading Comprehension (50 points)

Section A (30 points)

Directions: *There are 2 passages in this part. Each passage is followed by some questions or unfinished*

北方专升本

statements. For each of them there are 4 choices marked A, B, C and D. You are required to choose the ONE that best fits into the statement. Mark the corresponding letter ***on the Answer Sheet*** *with a single line through the center.*

Passage 1

Questions 11-15 are based on the following passage.

Everyone knows that forests help fight climate change. However, a recent scientific report shows that the world lost 300,000 square kilometers of forests in 2024. That's an area about the size of Italy.

According to the report, for the first time ever, fires were the biggest cause of forest loss. Take Brazil for example. This country has the largest area of rainforest in the world. Last year, it suffered from a long period of dry weather. Wildfires broke out and spread. As a result, about 25,000 square kilometers of the primary rainforest disappeared in the country. This meant fires caused 66% of its forest loss.

The second biggest cause of the world's forest loss was clearing land for farming. As people need more farmland, they keep cutting down forests every year. In 2024, the area of forest cleared for farming increased by 14% worldwide. The situation was more harsh in developing countries. For example, Bolivia's forest loss doubled in 2024.

Without doubt, something must be done. Experts call on governments, businesses and people to work together before it is too late. It seems that China has set a good example. Thanks to cooperation at many levels, China had the biggest increase in forest area among all countries in 2024. That year alone, newly-planted trees in China covered an area of nearly 45,000 square kilometers, according to a news report. If more countries start to take action like China, the earth will become a greener planet.

11. The size of Italy is mentioned in Paragraph 1 to show_____

A. why we need forests

B. where a disaster spread

C. what climate change is

D. how terrible forest loss was

12. What is the main cause of forest loss?

A. Air pollution. B. Fires. C. Farming. D. Clearing lands.

13. What does the underlined word "harsh" in Paragraph 3 mean?

A. Terrible. B. Boring. C. Balanced. D. Positive.

14. What was the reason for the growth of China's forest area in 2024?

A. Enough land. B. Nice weather.

C. Good teamwork. D. Green technology.

15. What is the best title for the passage?

A. Rainforest Became Larger

B. Farmland Area Grew Rapidly

C. Forest Fires Caused Pollution

D. Forest Loss Worried the World

Passage 2

Questions 16-20 are based on the following passage.

Many people believe Henry Ford invented the car. But Henry Ford did not start to build his first car until 1896. That was eleven years after two Germans developed the world's first car. Many people believe Henry Ford invented the production line that moved a car's parts to the worker, instead of making the worker move to the parts. That is not true, either. Many factory owners used methods of this kind before Ford. What Henry Ford did was to use other people's ideas and make them better. And he made the whole factory a moving production line.

In the early days of the automobile, almost every car maker raced his cars. It was the best way of

getting public notice. Henry Ford decided to build a racing car. Ford's most famous race was his first one. It was also the last race in which he drove the car himself.

The race was in 1901 at a field near Detroit. All of the most famous cars had entered, but only two were left: the Winton and Ford. The Winton was famous for its speed. Most people thought the race was over before it began.

The Winton took an early lead. But halfway through the race, it began to lose power. Ford started to gain. And near the end of the race, he took the lead. Ford won the race and defeated the Winton. His name appeared in newspapers and he became well-known all over the United States. Within weeks of the race, Henry Ford formed a new automobile company. In 1903, a doctor in Detroit bought the first car from the company. That sale was the beginning of Henry Ford' s dream. Ford said: "I will build a motor car for most people. It will be large enough for the family, but small enough for one person to operate and care for. It will be built of the best materials. It will be built by the best men. It will be so low in price that everybody can afford."

The Model T was a car of that kind. It only cost $850. It was a simple machine that drivers could depend on. Doctors bought the Model T. So did farmers. Americans loved the Model T. They wrote stories and songs about it. Thousands of Model Ts were built in the first few years.

16. What do we know about Henry Ford from Paragraph 1?

A. He knew how to improve car's parts.

B. He produced the first car in the world.

C. He improved others' good ideas.

D. He invented the first production line.

17. Why did Henry Ford take part in the 1901 car race?

A. To show off his driving skills.

B. To draw public attention.

C. To learn about new technology.

D. To raise money for his new company.

18. Why did Henry Ford become famous all over the United States?

A. Because he started a new company.

B. Because he built the first car.

C. Because his car won the race.

D. Because he drove his car so well.

19. What can we infer about the car before Model T from the passage?

A. The car was not invented until Model T.

B. The car was big enough for a whole family.

C. The car was very expensive.

D. Americans didn't want cars.

20. What is the main idea of the passage?

A. To tell readers that Henry Ford was the inventor of the world's first car and the moving production line.

B. To introduce how Henry Ford realized his dream of building affordable cars for most people.

C. To describe the famous 1901 race between Ford's car and the Winton's car.

D. To explain why the Model T was so popular among Americans, including doctors and farmers.

Section B (20 points)

Directions: *In this section there is a passage with ten blanks. You are required to select one word for each blank from a list of choices given in a word bank following the passage. Read the passage through carefully before making your choices. Each choice in the bank is identified by a letter. Please mark the*

corresponding letter ***on the Answer Sheet*** *with a single line through the center. You may not use any of the words in the list more than once.*

When we're little, we learn that tigers and sharks are scary animals. They're big and__21__, so we might be afraid of them. But as we grow up, we find out that sometimes the smallest animals can be the most dangerous. In__22__, the animal that hurts the most people is one we all know: the mosquito.

Not all mosquitoes bite people. Male mosquitoes eat nectar (花蜜) from plants. But female mosquitoes need animal blood. When a__23__mosquito bites a person, it puts its saliva (唾液) into the person's blood. This saliva might have a deadly disease in it. Sometimes the bite just makes you itch (发痒), but other times it can be very__24__and even cause death.

Mosquitoes bite a lot of people in their lives. They can__25__spread diseases from one person to another. Every year, over 700 million people get sick from these diseases, and at least 2 million people 26__from them.

Some people use mosquito nets over their beds to keep mosquitoes away. Mosquitoes also have natural__27__like bats, birds, dragonflies (蜻蜓), and some fish. If we bring more of these animals to places where mosquitoes live, it might help reduce the__28__of mosquitoes. But this doesn't always work well. We can also use sprays or poisons to kill mosquitoes, but these can__29__other plants or animals too.

Even though mosquitoes don't look as scary as big animals, they're actually more dangerous to people. But things are changing. Scientists are working hard, and one day they might find a way to__30__everyone from mosquitoes and the diseases they carry.

A. fact	B. changing	C. female	D. protect	E. easily
F. die	G. male	H. strong	I. amount	J. number
K. hurt	L. enemies	M. decided	N. serious	O. hardly

IV. Cloze (20 points)

Directions: *There are 10 blanks in the following passage. For each blank, there are 4 choices marked A, B, C and D. You are required to choose the ONE that best fits into the passage. Then mark the corresponding letter* ***on the Answer Sheet*** *with a single line through the center.*

It is__31__to hear people saying: "This kid was born to do this." Are people indeed born with talents? Can anyone be taught how to gain certain skills?

On the one hand, it is thought that each one of us has a specific talent that we were born with. There are children__32__are very good at music or sports even from their young age when they were not taught the skill at all. Moreover, there are many children that have managed__33__their skills on their own without any help from experts. This is actually what__34__people and makes them believe that there are people who have been born with specific talents. __35__, that does not mean that experts and teachers are not important. They help to__36__these talents in children and help them to improve their skills.

On the other hand, others argue that everyone can become a good musician or athlete, __37__they are taught by good teachers. What is needed is to be really keen__38__learning and willing to try hard in order to achieve your goal. We've seen examples like this: A child didn't seem to be able to be a musician, but after a lot of practice and lessons, he__39__succeeded. Everyone can be what they want to be through the right and professional__40__.

All in all, there are talented children, but without proper training, no one can improve their skills to achieve excellence.

31. A. common	B. difficult	C. important	D. impossible
32. A. what	B. which	C. whom	D. who
33. A. develop	B. developing	C. develops	D. to develop
